

RENÉ FROEHLING

Freelancer for SAP EWM & MFS

 mail@renefroehling.de

 Würzburg, Germany

SUMMARY

Experienced SAP EWM & MFS Consultant with deep expertise in material flow automation and system design. Combines strong ABAP/Fiori development skills with a strategic consulting mindset - enriched by a psychological perspective on human dynamics in logistics. Focused on creating sustainable solutions that go beyond technical workarounds by addressing the root causes of inefficiencies - which often lie within human interaction, not technical architecture.

PROJECT HIGHLIGHTS

Solution Architect SAP EWM-MFS

Since 08/24 | Food Industry

- × Designed & implemented the Material Flow System for a greenfield EWM implementation
- × Customized core MFS elements including error handling and layout-driven storage control

Head of MFS

01/2025 – 09/2025 | Internal (Consulting Company)

- × Strategic lead of the MFS Competence Center, including vision definition and execution
- × Resource planning and staffing of internal SAP EWM-MFS projects
- × Recruitment and onboarding of new team members to build a high-performing MFS unit

Senior Consultant SAP EWM-MFS

07/2023 - 12/2024 | Retail Sector

- × Designed and implemented new MFS requirements in SAP EWM
- × Analyzed and optimized warehouse processes (LOSC & POSC)
- × Provided expert support for operations and key users
- × Led technical debugging and process flow improvements

Consultant SAP EWM-YL

03/2023 - 07/2023 | Agricultural Machinery Sector

- × Analyzed and customized existing EWM processes
- × Identified and implemented new requirements for web and app applications (frontend & backend)
- × Designed and developed a new SAP YL system integrated with the existing EWM landscape
- × Acted as key contact for both the North American headquarters and German sites
- × Provided technical support and debugging assistance to the internal IT department

STRENGTHS

- × Rapid pattern recognition in logistics flows
- × High accuracy and composure in high-stakes situations
- × Clear communication between dev & operations
- × Deep real-time understanding of automation logic
- × Strategic thinking rooted in technical precision

SKILLS

- × SAP EWM / MFS (Development & Consulting)
- × ABAP Objects / Fiori / UI5
- × Conveyor logic, S&R-Unit, AGV integration
